Bancroft's Beautiful Flowers

For 1925

COLUMBIA

The rose for everybody. For beautiful form and size. For fragrance, for long keeping qualities Columbia stands at the head of all our roses.

Unexcelled for summer blooming out doors—is not hardy in this locality but pays for itself many times over if you plant out in a sunny location. Extra strong 2-year plants, 30 cents each, \$3.00 per dozen.

TO OUR CUSTOMERS

THIS IS A CATALOG OF DEPENDABLE THINGS

We do not sacrifice quality for price. You cannot get something for nothing. Our rapidly growing trade is with the class of people who are willing to pay a reasonable price for merchandise of quality. We do business on this principle—one good plant that grows and blooms is worth half a dozen that are grown so crowded and weak that they never make a good plant, no matter how you pet and fuss with them.

Our list is not as large as some but you will find that we have discarded the varieties that are not suitable here and list only those we know will prove satisfactory to you.

SERVICE

Service means quality of goods plus the ability to care for your orders in such a manner that you will come again—Our ever-increasing trade shows that we have both and we are giving them to our customers.

Any order that does not prove satisfactory in every way we are ready and glad to make right—if proper claim is made within a reasonable time after time of shipment.

Errors. If goods received are not as expected compare with order, read Catalog carefully, and if we are in the wrong, write us at once. Every just complaint will have immediate attention.

Remit by bank draft, express order, post-office order or registered letter.

To Responsible Parties goods will be sent on approval.

Plants by Express. Have your plants, shrubs, etc., sent by express when you can possibly do so. We guarantee safe arrival of all goods by express.

NOTICE. Plants by Mail. Add 10c per dollar on all orders for plants to go by mail. Prices given in this catalog are not prepaid. Postage or express is to be paid by purchaser. All large plants must be sent by express.

POINTS ON THE CULTURE OF FLOWERS

Treatment of Plants Received by Mail. If plants are wilted immerse them in water, without removing the packing material and allow them to remain for half an hour. Then unpack and set in small pots in rich fibrous loam, shade from the sun and sprinkle foliage every day being careful not to overwater the roots until the plants begin to grow, after which they may be shifted to larger pots if necessary.

Soil in Which to Pot Plants. The best soil for most plants is composed of two-thirds good garden soil, and one-third well-rotted manure, well mixed together. If not naturally sandy, it is well to add some sharp sand.

Watering. Whenever the plants are dry, water so that the earth will be saturated, and no more. No water should be allowed to remain in the saucers under the pots except in the case of aquatic plants. Soft-wooded plants require much more water than hard-wooded ones.

Drainage is of the utmost importance. Every large pot should have at least an inch of broken pot, shredded moss or charcoal in the bottom.

Syringing. All plants are benefitted by liberal spraying two or three times a week on the under side of the leaf.

Air. Ventilate well every day when air above freezing point can be admitted. Do not allow cold air to blow directly against plants.

Insects. One of the most disgusting of these is the Scale which attacks the Ferns, Palms, Ivies, etc., lodging on the stem and

under side of leaf. There is no remedy but scraping off and destroying. A severe scrubbing with an old tooth brush and soap will remove the scale. Mealy bugs lodge in the axils of the leaves and are easily removed by using an old tooth brush. Red spider shows itself in a brown dried condition of the leaves and is an indication of too dry an atmosphere. Sponge, sprinkle or wash the leaves often and thoroughly. The Green Fly or Aphid, is best destroyed by tobacco smoke, if the smoke can be confined about the plants; otherwise a tobacco tea, made by steeping one pound of tobacco stems in four or five gallons of water, can be used. Dip the plants in the liquid, or sprinkle them thoroughly with it; or moisten the plants with water and sprinkle tobacco dust over them, letting it remain until the usual watering washes off.

Worms in the Soil. Lime water will usually expel them without injury to the plant, one part lime to twenty parts of water, and when clear, give one or two waterings.

Mildew. A whitish or moldy appearance of the leaves. It is caused by a sudden change in the atmosphere from great heat to cold, or by a draft from open windows or door. At first appearance dust them with sulphur.

PALMS

Kenita Belmoreana. An elegant species in which the Pinnas are beautifully curved and reflexed. One of the easiest to grow in cultivation. Nice plants \$1 each; large size, \$2, \$3 and \$5 each.

Kentia Forsteriana. Similar to the preceding, but taller and more robust. Nice plants, \$1 each. Large size, \$2, \$3 and \$5.

Areca Lutescens. A most elegant palm. \$1, \$2 and \$3 each.

Latania Borbonica. (Chinese Fan Palm). One of the most desirable for general cultivation. Especially desirable for center vases, etc. \$1 and \$2.

Phoenix Ruebleana. Dwarf feathery growth. Very suitable for center of fern dishes. Takes the place of the cocoa palm and easier to grow, 75c and \$1.00.

PANSIES

The Pansy begins to bloom in February and continues until late in the fall. Should be placed in very rich soil and watered freely. We offer a fine collection of carefully grown, from pots, that are sure to give satisfaction and bloom freely.

Giant Varietis. Colors separate. 60 cents per dozen.

Our Special Mixture. Containing a fine mixture of all varieties. 75 cents per dozen, \$5 per 100.

NOTICE—Owing to NEW POSTAL RULING AFTER APRIL 15th Special Delivery packages over 2 lbs. will cost 25c. This charge will apply to all cut flower orders except dollar prepaid boxes.

CUT FLOWERS

In design work and loose cut flowers we are better than ever prepared to care for your wants. With 60,000 feet of glass devoted to flowers, our excellent facilities for storing and shipping, we are sure that you cannot do better elsewhere. We carry on hand the largest stock of seasonable cut flowers in Central Iowa, even in the largest cities few firms carry the stock that we do. Frequently persons are undecided what to order and at such times you may leave the selection to us, stating what you wish to use them for and the price you wish to pay.

WHEN TO ORDER. Give us as much time as possible. Do not be afraid to order even a week or two ahead. You are sure of getting just what you want. Where an order is not sent in until the last thing, we sometimes have to substitute either in kind or color of flower wanted.

HOW TO ORDER. All customers will please notice that orders for early morning shipment must be in the night before. Our postoffice closes at 7 p. m. If you are not sure that your order will reach us before that time, it is safer to wire us. Telephone messages can be sent after 8 p. m. at considerable reduction. It is always best to telephone or telegraph your order when time is limited, as you are then sure of reaching us on time. **Don't trust the mails;** trains are often late and we often do not receive orders on time.

SUNDAY MAIL. If your order is sent by mail for Monday shipment, be sure and affix a special delivery stamp if letter is liable to reach here on Sunday, as we do not receive all our Sunday mail until Monday morning.

FLOWERS BY EXPRESS. All cut flowers, designs, etc., packed to carry long distance safely, either winter or summer.

FLOWERS BY MAIL. On request we often send small boxes of loose cut-flowers by mail. as a rule they reach their destination all right, especially carnations, but much prefer sending by express, as flowers carry better. If orders are to go out by mail, add 20c postage which includes special delivery stamp. We positively will not be responsible for time or delivery or for flowers freezing in transit by mail.

TERMS AND CONDITIONS. Cut flowers are strictly cash, and payment must be made immediately on receipt of flowers. We seldom send C. O. D. It often embarrasses those who buy, and it is a needless expense.

COMPLAINTS to be allowed should be made immediately on receipt of flowers. We stand ready always to make any wrong right.

RESPONSIBILITY. While we exercise the greatest care to have all flowers reach their destination on time, and, will not ship unless we are reasonably sure **they will reach you on time**, we positively will not be responsible for delays in trains, wrecks or express agents' negligence. **Should your flowers reach you too late, accept them under protest, do the best you can with them. If for a funeral, lay them on the grave, we will share the loss with you and take care of any claim against express company.**

OUR SHIPPING FACILITIES. The fact that the great harvester companies have their general agencies in this city is in itself a sufficient guarantee that there are none better in Northern Iowa.

NOTICE — Owing to New Postal Ruling after April 15th Special Delivery packages over 2 lbs. will cost 25¢. This applies to all cut flower orders except \$1.00 prepaid boxes.

Flowers for the House the Season Through

A BIRTHDAY

Have you a friend you would love to remember, then **say it with flowers**, the most beautiful of remembrances. Our assorted boxes, \$2.00 and up, are very appropriate—say when they should reach destination.

For the home, a party, for a birthday, or for a sick friend. Just mail us your card and with the address of the person who is to receive it, and we will do the rest. We know you will be pleased.

VERY IMPORTANT

How to Keep Your Cut Flowers

All design work. Leave in the boxes and set in a cool cellar until ready to use.

Loose Flowers. Remove from boxes at once, clip the ends of stems and put them in water and set in cellar, using deep vase with plenty of water at bottom, and see that the stems are down in the water. By securing loose flowers early and keeping them 12 to 24 hours before using, you double the value of the flowers.

You enjoy having flowers in the home and having them on the table when you have a few friends in; why not have them oftener? Part of the year you cannot grow them, but we make it easy for you to have them whenever you like, at a small cost. **Our \$1 and \$2 boxes of cut flowers sent prepaid anywhere is always suitable whatever the occasion.**

Golden Ophelia

HOLIDAYS

Owing to the extraordinary demand, it is sometimes impossible to give you exactly the kind of flowers ordered. We do our best, but our customers will find we can give better value in mixed boxes of our own selection, \$2, \$3, \$5, \$10.

DECORATION DAY

Corsage Bouquet.

One of the hardest days of the year to supply the demand. If the weather is not hot and damp, it is a time of poor quality and high prices. We shall endeavor to bill all stock at most reasonable prices, according to quality. Prices from May 28th to June 1st will be about as follows:

Carnations, assorted colors only and our selection, \$1.50 and \$2.00 per dozen. Purchaser's selection of color, \$3 per dozen.

Roses, \$1.50 and \$2.00 per dozen, extra fancy \$3.00 and \$4.00 per dozen; **Columbia**, \$3.00 and \$4.00 per dozen, extra long, \$6.00 per dozen; **Jasmine**, 60 cents per dozen, \$4.00 per 100; **Gladiolus**, \$3.00 and \$4.00 per dozen; **Lilies**, \$4.00 per dozen. Count of lilies includes buds.

MOTHER'S DAY

Usually observed in all churches the second Sunday in May. Wear a flower for mother's sake, a white one for the mother that is dead, and a colored one for the one who is living.

Carnations. Assorted colors only, and our selection of color, \$2.00 per dozen. Purchaser's selection of color, \$3.00 per dozen.

Roses. \$1.50, \$2, \$3, \$4 per dozen. Short stemmed roses, assorted colors, \$1.50 doz.

Special Notice. All carnation orders for Mother's Day are taken by us with the distinct understanding that part Roses may be substituted for carnations if necessary.

FLORIST TELEGRAPH DELIVERY

We are members of Florist Telegraph Delivery Association of America.

Flowers Delivered to Any Part of the World.

We have a representative in, or near every city, town or hamlet, who will fill and deliver anywhere any order, on short notice through our co-operate telegraph system.

PATRIOTIC DESIGNS

We are well prepared to handle any order for the funerals of our Soldier Dead. Any special form made up in a satisfactory manner at reasonable prices. All designs for Military Funerals are draped with finest quality red, white and blue ribbon. We quote two very appropriate and beautiful pieces.

General List of Flowering and Ornamental Plants

Asparagus Sprengeri

ASPARAGUS SPRENGERI

A grand trailing plant, especially useful to grow as a pot plant for house decoration or for planting in hanging baskets or window boxes, where it makes a graceful drooping plant with branches or fronds 4 or 5 feet in length, of a rich shade of green; valuable for cutting, or decorating, as it retains its freshness for weeks after being cut. 15 cents each, 50 cents for 4 large plants, by express, 25 cents, 30 cents and 40 cents each. \$2.50 and \$4.00 per dozen.

ASPARAGUS PLUMOSA

The stem is tufted, slender and gracefully arching. From the upper portions of the branch, which are finer than the fronds of the most delicate fern, spread in all directions. The whole plant is of bright, cheerful green, and one of the most distinct and effective decorative plants, of easy culture, thriving best in full light, but not direct sun. After the plants become large, they throw large tendrils, 4 to 6 feet long, which are beautiful for decoration. 15 cents each, 4 for 50 cents; large size, 20, 30 and 50 cents.

ABUTILONS (Several Varieties)

10 cents to 25 cents each.

Abutilons Trailing. 15 cents each, 4 for 50 cents.

GERANIUMS

A Bed of Flowering Geraniums Bordered With Mad. Salleroi.

18 Geraniums from 4-inch Pots and 24 Geraniums Mad. Salleroi, for \$5.50 by express.

In ordering state variety wanted. They should be all one variety for effect.

The Geranium is the most popular plant for bedding purposes, and deservedly so, as they continue to bloom profusely in the hot summer months when other plants are scorched by sun and dry weather. The new double varieties bloom as freely as the single and make as fine bedders, being more durable.

Our list of flowering Geraniums will be found very large and complete. We have taken great care in selecting the different varieties showing distinct characteristics of their own.

The varieties listed are the best bedding varieties on the market today. They are the best there is for basket, window box and for bedding outside.

HOW TO HAVE A GOOD BED OF GERANIUMS

Plant in medium soil, not too much sand or manure. See that they are in a bright, sunny

place. After they once become established do not over-water as this will have a tendency to make them go to leaf growth; when weather becomes very hot a light mulch is beneficial. Always keep soil around plants stirred to a depth of at least one inch. Keep plants free from all old flowers and leaves and if any of the plants become ungainly, pinch off ends of long shoots.

SPECIAL NOTICE—have your Geraniums shipped by express—it takes a long time for them to get over mailing.

SCENTED GERANIUMS

Exceedingly useful on account of their fragrant foliage.

A SELECT LIST OF BEST DAHLIAS (Priced Separate)

The Dahlia is now taking first place among autumn-flowering plants; this is largely due to the splendid new sorts that are being brought out in the Cactus and Decorative class. There is nothing that can equal them in range of color and abundance of bloom. Any good, rich garden soil, not too wet, will grow good Dahlias. Show and Decorative types are the smoother petals. Cactus are the curled and twisted petals as shown in the cut.

Plant Dahlias in open ground, about the first of May, if the ground is at all cold and wet defer planting until later date. With us, the started plants have proved as good as the tubers. In fact, they come into bloom more quickly than the tuber and are cheaper.

Always stake your Dahlias as soon as they are tall enough, using good stout stake at least 4 feet high. In the fall, after hard frost, cut the tops off within 3 inches from the ground, take up and store in a cool cellar free from frost.

SPECIAL OFFER ON DAHLIAS. We have a fine lot of best named varieties that did not bloom early enough last year to true up. We offer them in assortment divided clumps—7 for \$1.00. They will give you satisfaction, as they are not only cheap, but they are valuable sorts.

ROSES

Plant in sunny location, in deep dug, well enriched soil. After plants are set out keep soil stirred; do not plant in hole in sod and expect them to bloom. Cultivate same as any garden vegetable and you will be repaid for your work and trouble.

Culture for Winter Bloom. Keep in a room with temperature 60 to 65 degrees with all the sunlight possible. Sprinkle under side of foliage every morning if sun is shining. Do not sprinkle on cold, dark days unless the atmosphere of the room is very dry. As soon as the bud is matured, cut the stem down to within three or four inches of the main stalk. Use rotted cow manure in soil. A little weak manure water at the roots once a week is very beneficial if the plant is growing strong.

Insects and Diseases. Greenfly is easily subdued by dusting the leaves with powdered tobacco. The rose-slug is quickly killed by dusting the insect or the whole plant—with road dust on a sunny day. Mildew, which affects the leaves in the early spring and fall, is due to

the variable temperature. For this dust powdered sulphur on the leaves. Roses must be sprinkled thoroughly every sunny day. In the morning is preferable.

Roses by Mail. Unpack immediately. Do not expose roots, but place at once in a shallow dish of tepid water. Toward evening carefully plant in a good mellow soil, thoroughly firming the moist earth around the plant. Shade from the mid-day sun just after planting. If you can possibly avoid it do not have your plants sent by mail—the small amount of express you will have to pay will be more than made up on the extra value of plants we will send you.

Roses by Express. They are usually packed with all or part of the earth adhering to each plant. They invariably arrive in good order. If the balls of earth are dry hold carefully in a pail of water for a moment, then firm the earth carefully around the balls. Never plant a rose when dry at roots; always soak before you put in the ground, then firm the soil thoroughly around them and water again.

ROSES FOR SUMMER BLOOMING OUTDOORS

Every year we send out several thousand of our two and three year old bench grown roses for planting outside. These are rested and practically dormant when they are shipped. If planted out early in May in a good sunny place where you can give them plenty water, they will give you wonderful results.

Orders must be placed early and will be filled when we take the different varieties out of the benches in our Rose Houses. We offer Columbia, Premier, American Legion, Crusader, Butterfly and Angeles, \$2.50 per dozen; \$20.00 per 100.

STANDARD COLLECTION OF EVER-BLOOMING ROSES

These Roses are especially suited for summer bedding where large quantities of blooms are wanted. Are not hardy in this climate.

Bon Silene. Bright cherry crimson; strong, vigorous grower; wonderful bloomer.

Duchess de Brabant. Light rose, heavy shading of amber and crimson.

Gruss an Teplitz. Richest scarlet, shading to a velvety crimson; larger than Hermosa.

Hermosa. Rosy Pink. An old garden favorite.

Mad. Cecil Bruner. Popular baby pink rose, comes in clusters, used largely for corsage.

Suitable for summer planting.

COLLECTION OF TEA ROSES

The flowers are much larger and more perfect than the preceding list but not in such quantity.

Madam Cochet. Rich healthy foliage, longer stout stems, extra large and full. Bright rose.

Angeles. A grand new white, almost as large as Kaiserine, but a better bloomer.

Mad. Butterfly. A glorified sport of Ophelia, a wonderful shade of old gold, orange and yellow.

Crusader. A velvety crimson scarlet, in a class by itself; good size flower; fine long stem; free in growth and blooming, 30 cents.

Kaiserine Aug. Victoria. Best summer bloomer white.

White Killarney. Identical with above, except color, which is pure white.

Ophelia. Clear, bright salmon, often deepening toward golden pink; wonderfully fragrant, with long, pointed buds and stiff stems.

Columbia. The Rose of all Roses, beautiful, clear, glistening pink, exceptionally strong grower, long stems, keeping qualities are very good. One of the best summer flowering roses.

Premier. Deep, rose pink and very free flowering. Large size, good keeper. 25 cents.

Golden Ophelia. Similar in growth with Ophelia. Color, clear golden yellow. 25 cents.

White Ophelia. Delicate peach shading to white in growth like Ophelia. 25 cents.

Amelia Gude. Strong, upright grower, flowers light, clear yellow. A strong grower, and good bloomer.

Annie Laurie. Deeper in color than Butterfly and more double.

Commonwealth. Strong, rugged grower, very dark pink. A strong grower and splendid summer bloomer.

America. Of large size. A tremendous bud, light, clear pink like Columbia. Bud long and pointed.

American Legion. A wonderful grower and producer. A beautiful light, clear red.

PRICES OF ALL TEA AND EVER-BLOOMING ROSES

Except where noted, first size, 15 cents each, \$1.50 per dozen; second size, 25 cents each, \$2.50 per dozen. Our selection, ten strong plants from 3-inch pots, especially suited for summer bloom, for \$1.75, by express. These will give you more satisfaction than \$3 invested in cheap little roses.

TWO NEW REDS

Sensation. Very large pointed bud. Strong grower, a rich velvety crimson. 25 cents each.

Templer. Is not a big rose but is a wonderful bloomer. Very free, dark rich red. 25 cents.

Very strong grower, beautiful fern-like foliage literally covered with a blaze of fiery cardinal red flowers, from mid-summer till frost.

25 cents each, 5 for \$1.00.

CYPHERUS ALTERNIFOLIUM (UMBRELLA PLANT)

Being an aquatic, it is at home in the aquarium. 25 cents and 50 cents each.

CYCLAMEN

Giant Flowered. Most beautiful and decorative of all pot plants, for winter and spring blooming. Foliage broad, massive and graceful, of dark green, beautifully variegated with silver and rose. The flowers are carried on

long stems and produced in profusion for several months. First size, separate colors, suitable for next winter's bloom at 25 cents each. Large size in fall, \$1, \$1.50.

SALVIAS

The Salvias now rank with the geranium in importance as a bedding plant. These French varieties are especially valuable on account of their dwarf and compact habit, and coming into bloom in mid July.

Clara Bedeman. Tall, upright grower.

Fireball. Dwarf compact habit, very free flowering. Flowers brilliant scarlet.

PRICE OF SALVIAS: First size, 10 cents each, \$1.00 per dozen, \$6.00 per 100. Second size, 15 cents each, \$1.50 per dozen, \$10.00 per 100; third size, 25 cents each, \$2.00 per dozen; 16.00 per 100.

VERBENA

Is one of the prettiest and most popular of the flowering plants suitable for forming beds on the lawn. It commences to flower and spread from the first day the plants are set until late in the autumn. Colors are white, blue, purple, pink, rosy, crimson, striped. 75c per dozen. 4 for 25 cents.

SANSEVIERA ZEYLANCA

The leaves grow to a length of 3 to 4 feet and are beautifully striped crosswise, with broad white variegation on a dark green ground. 25 cents each; large size, 50 cents each.

VINCA

This great window-box and hanging-basket plant increases in popularity each year.

Major Variegata. A beautiful variegated trailing plant. Leaves glossy green, broadly margined with creamy white; flowers blue, 15 and 25c each. \$1.50, \$2.50 per dozen.

Extra large, 40 cents each, \$4.00 per dozen.

HARDY ROSES—A Selection of the Best

Knowing that there is a greater loss of Hardy Roses than any other dormant plant, it shall be our earnest endeavor to supply our customers with the very best plants possible, guaranteeing them to be in good condition when they leave our hands. We offer this year pot grown plants only in Hybrid Perpetual. Too much loss with dormant stock.

HOW TO PLANT—VERY IMPORTANT

When planting, care should be taken to set plants deeply, planting them at least two inches below first point or branches and pounding the soil firmly around the roots. Don't crowd the roots, but dig a good, large hole, spreading out the roots; work the soil around the roots and pack firm as you fill the hole. When about two-thirds full of soil, give thorough watering, then when water soaks away, fill up the hole and firm the soil with your boot. Never for an instant expose the roots to the hot sun. If weather is very warm, protect the dormant tops with straw, sacking or other protecting material, until the tops swell, gradually accustoming them to the light and air. By carefully observing above, you will have no trouble to make your dormant plants thrive, where by careless planting and after-care, one-half will die.

Winter Protection for Rose Plants. This may be done with material most convenient at hand, such as leaves, straw, light manure, street sweepings, pine and cedar boughs, etc. Large Rose bushes will stand several degrees of frost and the covering should not be put on until winter has set in.

How to Make Roses Bloom. In the axil of each leaf is a latent bud. Should the long, strong shoots or branches be placed and kept in a horizontal position, each latent bud will produce many flowers. Cut wooden hooks and peg the long, straight shoots firmly to the ground. These branches will not only flower, early and late, but will make robust wood, which can be treated in the same manner the following spring. Monthly and Hybrid Roses can thus be made to bloom continuously.

Suckers. Always remove any suckers that come up at side of plants—they are from the root graft of the rose, and they will not bloom and only rob the vitality of the plant.

HYBRID PERPETUAL ROSES

Frau Karl Druschki. One of the finest pure white roses.

General Jacqueminot. Rich, velvety, crimson, changing to scarlet crimson. Very fragrant.

Magna Charta. Extra large, full flowers; very double, clear rose, blushed with carmine.

Mme. Plantier. Grows in bush form, flowers in great abundance in June. Pure white.

Mrs. John Laing. Beautiful soft pink, delicious fragrance; of exquisite shape; very large and double.

Prince Camille de Rohan. Rich, dark velvety crimson, passing to maroon shaded black.

Ulrich Brunner. It is of a rich, glowing crimson scarlet color. Free, continuous bloomer.

PEONIES

Once planted They Will Last a Lifetime

Planting. An important point to observe is not to plant too deeply. The roots should be placed so that the crowns (or eyes) are covered with two or three inches of soil. Planting too deep is often the cause of shy blooming.

Plant with the southwest or west exposure.

Plant as early as possible in the spring, as they sprout very quickly. If order is received too late for planting we will hold that part of order and deliver early in the fall.

Our list contains the very best and most dependable varieties.

SPECIAL OFFER

Three Peonies all different, strong roots for \$1.00 or three-year-old clumps for \$2.00. 12 all different, part named varieties, strong roots for \$4.00. This collection is made up of some of the finest varieties that names have been lost and is a bargain for one who wishes to plant a row in the garden—by express at purchaser's expense. Strictly our selection varieties.

Pelargonium or Lady Washington Geraniums

Showiest mass of bloom produced on any soft-wooded plant that we have. The flowers are of good substance, beautifully ruffled and fluted while the colors are perfection in gorgeous shades and markings and of great size and much better bloomer than the older varieties.

Mad. Vibert. Ruffled flower, fiery red, with black blotches.

Easter Greeting. The new species is the earliest of all Pelargoniums with enormous florets and clusters having light green foliage and of dwarf robust growth. Blooms from March until fall. The flowers are of a fiery amaranth red with five regular shaped spots.

Swabian Maid. A sort of Easter greeting, reddish carmine with five large black blotches bordered purplish carmine.

Gardener's Joy. Enormous clusters, apple

blossom pink, two upper petals blotched carbon brown.

PRICE OF PELARGONIUMS. Small plants, 25 cents each; large size, 50 and 75 cents each.

PANSY GERANIUMS

Mrs. Loyal. The flowers are of medium size and have white throat. Each petal is shaded toward the center with a rich lavender pink and a dark maroon blotch in the center; is of easiest growth, dwarf in habit and literally covered with flowers. 25 and 50 cents each.

Bancroft's Beautiful Flowers FOR 1925

GERANIUMS

The Geranium is the most popular plant for bedding purposes, and deservedly so, as they continue to bloom profusely in the hot summer months when other plants are scorched by sun and dry weather. The new double varieties bloom as freely as the single and make as fine bedders, being more durable.

Our list of flowering Geraniums will be found very large and complete. We have taken great care in selecting the different varieties showing distinct characteristics of their own. See pages 19 and 20.
